LANGUAGES

Foreign language: English

SKILLS

Android development:

- Programming language: Understand basic concepts of Kotlin
- Android Development Tools & SDK:
  - Android studio: The official IDE for building Android app
  - Android SDK: Essential tools and familarity with specific libraries: Navigation library - Jetpack Navigation, Networking library – Ktor, UI library - Jetpack Compose, Image – Coil for Compose
- Version Control: Git, GitHub
- Testing & debugging: Understanding of unit testing frameworks (JUnit) and writing unit tests
- Databases: Familiarity with SQLite or Room for local persistence
- APIs: Experience integrating with third-party APIs to extend app functionality.
- Understanding design patterns like: MVVM, DI, Singleton,… to build clean architecture applications

Design Thinking process & UX/UI skills: Understanding design user-centered design principles, the mockup, the prototype, UX/UI tool like Figma, Shape Shifter, UI design system like Material 3 to build intitive app.

Web development: Undertannding JavaScript, HTML, CSS and using ReactJS to build an intuitive Single-Page Application

PROJECTS

Calculator App APK | Source code | Design **Oct 30, 2023 – Nov 30, 2023**

- Description: This project is a simple yet functional calculator app built for Android smartphones using Kotlin. It prioritizes user-friendliness and stability while offering basic mathematical operations for both integer and real numbers.
- Features: Core functionalities: Addition, subtraction, multiplication, and division; Clear functions: AC button - clears all input fields, Del button - deletes individual digits for precise input adjustments; Real number and percentage support.
- Skills: Design pattern, Figma, Kotlin, Android Studio, Android SDK, Version Control,

Little Lemon APK | Source code | Design | Prototype **Nov 8, 2023 - Nov 18, 2023**

- Description: This project is guided by Meta staff to show the knowledge of Android development. Little Lemon is a small restaurant and the owner needs an app for their user to perform some services.
- Features: Core functionalities: Create and login account for local persistence; See and search the list of dishes; Show the profile
- Skills: Figma, Kotlin, Design pattern, Android Studio, Android SDK, Version Control, Room, SQLite, Libraries: Jetpack navigation, Jetpack Compose, Ktor networking, Coil

Unscramble APK | Source code | Design | Prototype **Jan 7, 2024 - Jan 17, 2024**

- Description: Unscramble is an engaging word game for Android, built with Kotlin, that challenges your vocabulary and unscrambling skills. It's perfect for anyone looking to sharpen their language abilities while having fun.
- Features: Track your progress: Monitor your improvement with features like score tracking and timekeeping; User-friendly design: The intuitive interface makes gameplay smooth and enjoyable, allowing you to focus on the word puzzles; Visual clues: Images can be included as hints to aid players in deciphering the scrambled words; Competitive spirit: Challenge yourself or friends by climbing the leaderboard.
- Skills: Kotlin, Design pattern, Android Studio, Android SDK, Version Control, Room, SQLite, Libraries: Jetpack navigation, Jetpack Compose, Ktor networking, Coil, Figma,

UX CASE STUDY

Dash Coffee | Design | Prototype | UX case study **Sep 29, 2023 – Dec 12, 2023**

- Description: This innovative app aims to enhance the overall coffee-buying experience, allowing users to easily customize and place their orders for pickup or delivery, fostering convenience and efficiency in their daily caffeine indulgence.
- Skill: Figma, Material 3 Design system, wireframe, mockup, prototype, Design Thinking process

Stars Seeker | Design | Prototype | UX case study **Feb 27, 2024 – March 6, 2024**

- Description: The waitlist website is designed with a sleek and user-friendly interface, offering a seamless signup process and enticing visuals to captivate users.
- Skill: Figma, Reponsive web design, Web component design, wireframe, mockup, prototype

ADDITIONAL PROJECT

Stars Seeker | Source code | Web **Mar 5, 2024 - Mar 11, 2024**

- Desciption: This project to show the knowledge of web UI and materialize the web design
- Skill: ReactJS, HTML, CSS

CERTIFICATES

Programming: Meta Android Developer

UX/UI: Google UX Design

Language: 700 TOEIC Listening & Reading
